

MINING, BUSINESS AND STOCKS.

BUSINESS ON EXCHANGE BIG.

Trading in Daly-West, Con. Mercur and Daly-Judge Heavy.

PRICES GENERALLY LOWER.

Few Stocks Participated and the Market Shows No Change in Condition.

Conditions on the Salt Lake mining exchange continue unsatisfactory. Trading is extremely light and the market is narrow and weak. Public interest in Utah mining stocks is very evidently absent and trading for some time past has been chiefly for professional accounts. Several prominent brokers report very few outside orders for stocks at present, and are of the opinion that it will be some months before any improvement in the market will be noticed.

In the meantime, it is stated, that there will be an attempt made to effect the passage of some rules for the government of the exchange members that will not only protect investors but the brokers themselves. The latter have without doubt been the object for the unwarranted abuse. If the plan is to be under consideration, are carried out the management of the various companies whose stocks are traded in on the board will be requested to furnish to the exchange either monthly or quarterly reports and the next legislature will be petitioned to pass a law requiring such reports to be made. Not a few prominent mining men in this city consider such an action of vital importance to Utah mining interests.

Today Daly-West, Consolidated Mercur and Daly-Judge did the bulk of the business which involved over \$15,000. Daly-West further advanced to \$4.00, while Daly-Judge at \$7.00 traded to the extent of 400 shares. On the Consolidated Mercur sales between \$1.50 and \$1.90 aggregated 1,400 shares. Yankin was dealt in at \$1.25 and on the curb, at \$1.10 and \$1.00.

ON THUNDER MOUNTAIN.

Le Sieur Thinks Camp Considerable Of a Humbug.

St. V. Le Sieur has returned from a trip in Idaho of nearly three months duration. He started for the Thunder Mountain country, but was taken very ill when within about 25 miles of his destination. He was compelled to camp there expecting to go into the district when he recovered. The new radio parties in whom he had confidence went into the district, and when they returned and reported he concluded not to go. They were very much disappointed, and claimed that there was nothing to justify the boom reports of the mining camp. Mr. Le Sieur says, however, that they may be mistaken as other camps which have turned out to be great producers have been condemned in the beginning. There is one report that Mr. Le Sieur thinks should be corrected, this is that men can get employment with the mining companies which are operating there. He saw scores of men pass his camp going into the district for the express purpose of getting work, and spoke to the same men when they came back

BEARS MAKE ATTACK ON PRICES.

Opened the Raid When Dealers Began Profit Taking.

SELLING BECAME URGENT.

Losses Largely Extended Throughout The List—Some Recoveries Followed Liquidation Spasm.

New York, June 19.—Illinois Central was lifted a little opening, but soon lost a point on realizing. Other stocks reached a lower level, but losses were limited to fractions except in a few cases. Large buying orders appeared in Atchison and when it crossed 83 other stocks rallied slightly. Dealings became quite active when the bears detected profit taking and made a general attack on prices. Many of the principal stocks fell between 1 and 2 points below yesterday's close; the list including Missouri Pacific, Illinois Central, Union Pacific, Reading, Manhattan and Amalgamated. Bonds were easier at noon. Selling became more urgent and losses were largely extended throughout. Stocks which had shown some resistance early, notably St. Paul and Eastern trunk lines, became decidedly weak and the general tendency was accelerated by heavy liquidation of United States Steel. The common stock fell to 36 1/2 and the preferred to 87 1/2. Declines elsewhere reached 2 points in a number of important stocks and 3 in Great Northern preferred. Anaconda and Ice preferred. At 1 o'clock the market was quieter and slightly above the lowest. A spasm of liquidation spent its force and there were substantial fractional recoveries as the shorts took their profit. Canadian Pacific recovered a point. Money on call steady at 2 1/2 per cent. Prime mercantile paper 4 1/2 per cent. Sterling exchange steady, with actual business in bankers' bills at 45 1/2 per cent. for demand, and at 45 1/4 per cent. for 30 days. Postal rates 1 1/2 and 1 1/4 per cent. WANTS UP-TOWN LOOP FOR ROAD.

Pres. Simon Bamberger Asks Council for Right-of-Way.

LINE WILL BE ELECTRIC.

Desires to Land Passengers on Main Street Here and Also Up At Ogden.

In order to have what he calls proper terminal facilities for his Salt Lake and Ogden railway Mr. Simon Bamberger is asking the city council for a right of way over certain streets, and last night he appeared before the committee on streets and municipal laws for the purpose of explaining his wishes in this respect. President Bamberger asks the granting to his company of the right to run over Third West street, beginning at the present station at South Temple street, going south to Third South street, then east to East Temple, or Main street, and north to South Temple, the Deseret News corner, then west on South Temple to the place of beginning at Third West. A similar loop right-of-way is to be applied for at Ogden, so that an end-less line service may be put on between the two cities, as well as to the accommodation of persons living near the hills en route. At present these inhabitants are but poorly served from a railway standpoint and the operation of an electric line through the vicinity of their homes will probably be gladly welcomed by them. Mr. Bamberger says that as soon as he has received the franchise he will begin to equip his present steam line with electricity and will at once begin the extension of the road to Ogden. The past performance of his company lends reliability to Mr. Bamberger's promises. LUCKY FLAGGING. Old Man Uses His Coat to Stop Train load of Passengers. In one of its recent trips down from Lagoon the Union Central Railroad was stopped by what might have proved to be a serious accident. Just this side of Bountiful a big load of hay had tipped over on the track. Hearing the train approaching from the north an old man with but one leg ran up the track and taking the coat from his back waved it frantically as a signal to the engineer. The train was stopped in time and the passengers, of whom there were quite a few, made up a little purse for the old man, who thankfully appreciated it. SPIKE AND RAIL. Berlin, June 18.—The administration of Prussian railroads has ordered two locomotives of special construction, which are to be capable of running at 100 miles an hour, for the purpose of conducting high-speed experiments. NEW YORK, June 18.—The board of directors of the Central Railroad of New York today recommended that the capital stock of the company be increased from \$19,200,000 to \$24,000,000 by the issue of 5,800 shares, each stockholder to have the privilege of subscribing to his proportion of the new stock at par. The recommendation will be acted upon at a special meeting of the stockholders in August on Aug. 29. The funds are to be used in providing additional tracks and equipments. An Ogden excursion goes over the Short Line Sunday under the auspices of the Ogal Club. Ernest Darke, of the Rock Island, has returned from Montana. Frank I. Smith, western freight agent of the Big Four route at Denver, is in Salt Lake. For the accommodation of Utah county attendants at the Democratic excursion to Lagoon, a train will leave the depot at 9:30 and Salt Lake at 10:30, over the Salt Lake & Ogden and the Short Line. Gen. Supt. Calvin, of the Oregon Short Line, is in Idaho. S. J. Rich was down from Blackfoot today and in consultation with officials of the Short Line. Utah county furnished the Oregon Short Line with a lot of passengers for Salt Lake this morning on account of the Democratic excursion to Lagoon today. Austin, Texas, June 19.—The state railroad commission has handed down a decision holding that all the Harriman lines in the state shall operate under single line rates. This order if enforced, means a reduction of about 25 per cent in the revenue on all the Southern Pacific lines in the state. WOOL. ST. LOUIS, June 19.—Wool, steady. Territory and western mediums 14 1/2 per lb; fine, 15 1/2 per lb; coarse, 11 1/2 per lb. GARDNER DAILY STORE NEWS. Contractor Calls Attention to Effect of Unions Among Them.

A prominent local contractor says there are a number of carpenters walking the streets seeking work in vain, although there is so much to be done, because of the action of the union in fixing the minimum rate of day's wages to \$3.00 per day. He says there are carpenters and carpenters. Some are worth more than \$3.00 per day, and they are having all they want to do. Then there are others who would be dear at \$3 per day, and contractors are refusing to give such employment, although they would be glad to do so at wages commensurate with their actual worth. The contractor said further, that these less competent men were becoming weary of walking the streets looking for work when there is so much to be had for the competent, and are beginning to work for less than the union minimum wage in order to get anything to do at all. The contractor said he had been obliged to refuse a good deal of work because he could not afford to take it, and then pay men more than their services were worth to fill his contracts.
